Delivery and Assessment

Mode of delivery

Mode of delivery will be classroom or any other mode of delivery that meets the needs of the learner, ensuring learner has access to appropriate resources.

It is strongly advised that learning and development of subject content and associated skills be referenced to real vocational situations in an office environment.

Arrangements for learners with special assessment requirements

Arrangements for learners with special assessment requirements may need to be adapted to meet;

- language requirements
- cultural or religious requirements
- physical disabilities
- particular learning needs.

Trainer qualifications

Training of learners will be by qualified Licensed Vocational Trainers who meet the requirements for employment in an ACTVET licensed institute and hold the required qualifications of Licensed Vocational Trainer (proposed). Licensed Vocational Trainers should be qualified and have recent experience of work in office environments.

The trainer will comply with all licensing and accreditation requirements for an ACTVET Licensed Trainer.

Training methods

Licensed Vocational Trainers must use appropriate methods of training for classroom environment that reflects the vocational requirements of a workplace setting. Learning must be paced to meet the learner's needs, preferred style of learning and is taught at a level where all learners comprehend the concepts trained.

 Assessment will be in classroom environment conducted by Assessors who meet the requirements for employment in an ACTVET licensed institute and hold the required qualifications of Licensed Vocational Assessor. Assessment methodology will be selected to utilise the most appropriate methods of assessment for the knowledge or skill involved and will be tailored to meet the requirements of the Unit Standards. Assessors must take into consideration any special assessment arrangements for learners to ensure learners are not disadvantaged in the assessment process. Assessors must have: licensed Vocational Assessor qualifications or similar applied industrial experience assessment practices that meet QFEmirates National Standards of assessment regular professional development practices. 	Assessment	
	conducted by Assessors who meet the requirements for employment in an ACTVET licensed institute and hold the required qualifications of Licensed Vocational Assessor. Assessment methodology will be selected to utilise the most appropriate methods of assessment for the knowledge or skill involved and will be tailored to meet the requirements of the Unit Standards. Assessors must take into consideration any special assessment arrangements for learners	 licensed Vocational Assessor qualifications or similar applied industrial experience assessment practices that meet QFEmirates National Standards of assessment

Assessment methods						
All assessment methods must use the appropriate assessment methods to assess knowledge and						
skill. There must be fair, valid, reliable, authentic and sufficient evidence for all assessment						
criteria.						
A range of assessment methods should be used to assess practical skills and knowledge. The						
following examples are appropriate for this qualification:						
 assessment of written reports summarising results of candidate skills assessment and selection outcomes 						
 observation of techniques 						
•	f portfolios of avidance and third	portu workplace				
• direct questioning combined with review o	-	party workplace				
reports of on-the-job performance by the ca	andidate					
• oral or written questioning						
 review of authenticated documents from th 						
• review of testimony from team members, c	colleagues, supervisors, managers	s, clients or				
candidates.

requirements. Verifiers will ensure that environment for the verification process						
learner tracking of registration for ability to evidence standardisation process						
qualifications, assessment decisions and		-				
achievement, are recorded and maintained						
accurately and timely and are open to						
scrutiny.						

Verification method	
Assessment and verification process will confo	rm to the following:
 Institute systems for learner, assessment and verification are unified. Qualified Assessors must be used for all assessment. Learner's achievement is evidenced and recorded. Learner is included in the assessment decision making process. Assessment of learner's achievement is evidenced by best practice. Assessment takes into account diversity and language differences. Assessment of learner's achievement is tracked and recorded. Learner will be able to compile their portfolio using their preferred technology. Assessment uses valid, fair, authentic and reliable practice and reduces barriers to 	 Evidence collection makes efficient use of assessment opportunities and work production. Licensed Vocational Verifiers must be used for all verifications. Verification of learner's achievement is evidenced by best practice. Verification of learner's achievement is tracked and recorded. Standardisation of assessment and verification processes are evidenced Evidence of sharing of learner, assessor and verifier best practice. Evidence that complaints are addressed, recorded and solved effectively. National Industry Sector Classification Code (SIC) to classify units and qualifications as per the guidance in the QFEmirates
assessment.	handbook.

This qualification is a knowledge, skills and application qualification. Assessment should, where possible, take a holistic approach. Assessment in one unit can be used as the assessment for another, if the assessed piece of work covers the criteria in the units. Assessment must be accessible for learners and the process of assessment as simple as possible. Learners must demonstrate competence by producing a portfolio of evidence.

This qualification is examined in two ways: assessment of performance and underpinning knowledge. All performance is assessed by an assessor against the performance criteria and recorded in the Cumulative Assessment Record. Competence recognises all qualification requirements have been achieved. Not yet competent means all requirements have been attempted but yet to be achieved, insufficient evidence means all requirements have not been attempted. Underpinning knowledge is examined that more than 80% of the predetermined marking criteria should be met.

This qualification is internally assessed by qualified Assessors and verified by Qualified Internal and External Verifiers of Approved Provider status institutions. Simulations in assessment are not recommended will require prior approval from the External Verifier.

Learner evidence

Learners must demonstrate knowledge and skill achievement in a presented portfolio.

Integrated assessment

Opportunities for integrated assessment are possible between units 2 and all, 1, 3 and 6, and 3 and 4

Risk in assessment

The learner's work environment needs proper management and risk management analyses. The following risks will be observed in the training, assessment and verification phases:

- health and safety
- stressing the learner
- inauthentic evidence/collation/unjustifiable support to the learner
- over-assessment
- potential of unfairness to the learner
- failing to meet assessment strategy of a qualification.

Appeals procedure

In the event that a learner judges that he is being unfairly considered in the assessment or verification process he has the right to appeal using the recognised appeals procedure and documentation (not included in this submission).

In the event that an assessor judges that he is being unfairly considered in the assessment or verification process he has the right to appeal using the recognised appeals procedure and documentation.

Level: 4Credit value: 3Notional learning hours: 45 hours							
Assessment criteria: Knowledge, skills and application (KSA)							
Learning outcomes							
Learning outcome 1: Understand how to identify potential emergencies							
Performance criteria:							
1.1. Knowledge of hazards and causes of potential emergencies is displayed.							
1.2. Potential emergencies are identified by stakeholders.							
1.3. Potential emergencies and their causes are identified and contributed to a risk registe	r.						
Learning outcome 2: Understand how to identify options for initial response							
Performance criteria:							
2.1. Major types of emergencies are categorized.							
2.2. Actions required are identified to contain or limit potential emergencies.							
2.3. Actions required are identified to limit impact on personnel, property and the enviror	mont						
2.4. Requirements for liaising with emergency agencies are compiled and recorded.	innent.						
2.5. Actions to be taken during emergencies are prioritised.							
Learning outcome 3: Be able to plan initial response procedures							
Performance criteria:							
3.1. Immediate responses are identified and resources available and required are listed.	1						
3.2. Emergency equipment is checked to ensure serviceability, accessibility, cleanliness a	ind						
correct location.							
3.3. Actions required for a number of major types of emergencies are identified taking int							
account, current industry practices, specialist advice and input by emergency agencie	es.						
3.4. Training needs and appropriate providers are identified.							
Learning outcome 4: Understand how to act in emergency response situations							
Performance criteria:							
4.1. Actions for initial response are documented and displayed.							
4.2. Own role in an emergency response is understood and implemented.							
Learning outcome 5: Be able to monitor emergency response and address deficiencies							
Performance criteria:							
5.1. Emergencies are monitored and responses for efficiency and timeliness are identified	with						
stakeholders.							
5.2. Monitoring results are promptly reported to managers and key personnel.							
5.3. Organisational and personal improvement recommendations are identified and made	for						
further improvement.							

Evidence guideline

- Formative evidence for this unit can be written, oral or diagrammatic, as directed for given situations.
- Formative evidence ought to assist learners to learn and increase performance to reach summative assessment requirements.
- Summative assessment is project based from real live work situations. Simulation is only permissible with the written approval of the Internal Verifier.
- Learners should demonstrate no less than 80% of the requirements for the summative assessment.
- Re submissions are permissible.

- 1. Learners identify potential emergencies and evidence with a report on potential hazards, emergencies and causes.
- 2. Learners identify options for initial response and evidence with a report on types of emergencies and actions to be taken.
- 3. Learners plan initial response procedures and evidence with a report on initial responses, equipment, and best practices.
- 4. Learners act in emergency response situations and evidence with a report on own role in emergency responses.
- 5. Learners monitor emergency responses and address deficiencies and evidence with a report on current procedures and recommendations.
- 6. Learners review own work and identify performance improvement strategies.

Business Administration
Level: 4Credit value: 3Notional learning hours: 45 hours
Assessment criteria: Knowledge, skills and application (KSA)
Learning outcomes
Learning outcome 1: Be able to plan and prepare for communication
Performance criteria:
1.1. Organised communication network and benefits are explained in accordance with
organisational requirements.
1.2. Monitoring and modification are identified for improving the organised communications
network.
1.3. Teams and individual roles and responsibilities within the team are identified and, as
required, assist in the provision of the on-the-job training.
Learning outcome 2: Understand how to facilitate team communications
Performance criteria:
2.1. Forums, including briefings, meetings and committees, are scheduled as required in
accordance with enterprise/site requirements.
2.2. Communications network information is provided to team members to ensure maximum
efficiency in accordance with site requirements.
2.3. Communications skill deficiencies are identified and actions required are informed in
accordance with enterprise policy.
2.4. Team members are encouraged to participate in accommodating views of others in the work
environment in accordance with enterprise policy.
Learning outcome 3: Be able to facilitate meetings
Performance criteria:
3.1. Meetings are planned and organised including distribution and clarification of agenda,
notification of date and venue, required attendees and administration requirements, in
accordance with organisation requirements.
3.2. Format and rules of procedure are identified, and proposed to the relevant manager in
accordance with site requirements.
3.3. Views of all parties are identified and presented, including agreement and dissent, to obtain a
balanced position in accordance with enterprise policy requirements.
3.4. Outcomes and agreed action plans are recorded and details of next meeting confirmed before
closing in accordance with site.
Learning outcome 4: Be able to represent team views
Performance criteria:
4.1. Team viewpoints are determined, including possible options and acceptable alternatives or
compromises prior to presentation.
4.2. Team viewpoints are presented in clear, concise and logical manner accepting the need for
rational and productive debate.
4.3. Decisions and outcomes are conveyed to team members to accurately portray their position.

Learning outcome 1: Understanding of what embodies human rights
Performance criteria:
1.1. The meaning of human rights is defined.
1.2. How human rights are protected is explained.
1.3. The relationship between human rights and community participation is explained.
Learning outcome 2: Understanding of what citizenship within a society means
Performance criteria:
2.1. Rights of citizens and residents are identified in the UAE.
2.2. The responsibilities of citizenship and residency are described.
2.3. Individual rights and responsibilities that may lead to conflict are described.
Learning outcome 3: Understand how citizens can influence decisions
Performance criteria:
3.3 Individuals group and organisational influence decisions affecting communities and the
environment are described.
3.4 The role of the media in communities and society is explained.
3.5 How the media shapes opinion is explained.
Learning outcome 4: Understand how to plan and promote own active citizenship and community
participation
Performance criteria:
4.1 Ways to encourage active citizenship and community participation are described.
4.2 Plans for own active citizenship are developed.
4.3 Feedback to improve plans is sought and discussed.
4.4 Plans are implemented and activities recorded.
Evidence guideline
• Formative evidence for this unit can be written, oral or diagrammatic, as directed for given
situations.
Formative evidence ought to assist learners to learn and increase performance to reach
summative assessment requirements.
Summative assessment is project based from real live work situations. Simulation is only
permissible with the written approval of the Internal Verifier.
• Learners should demonstrate no less than 80% of the requirements for the summative
assessment.
Re submissions are permissible.
Evidence requirements
1. Learners understand about human rights and evidence with a report on the meaning and the
relationship with community participation.
2. Learners understand the concept of citizenship within a society and evidence with a report on

the meaning and benefits of good citizenship.

- 3. Learners understand how citizens can influence decisions and evidence with a report on the influence of individuals, groups, organizations and media.
- 4. Learners plan and promote own active citizenship and community participation and evidence with a report on plans and activities to promote active citizenship and community participation.
- 5. Learners review own work and identify performance improvement strategies.

Unit: 4 Unit title: Work within an organisational structure Unit code: FC000401412 Business Administration

Credit value: 3 Notional learning hours: 45 hours

Unit Information

Level: 4

Unit description of content

This unit deals with performance outcomes, skills and knowledge required to be an active participant in the governance activities of an organisation, with an understanding of the roles and relationships, some of which may involve legislation, rules, regulations and code of practice relevant to different job roles

Information for learning and achievement

This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of the unit requirements and demonstrate achievement in all aspects of evidence requirements. It is strongly advised that learning and development of knowledge and associated skills be referenced to real vocational situations in the workplace. Evidence must be at the level required by the unit standard and all related criteria. Candidates must contribute to group work by playing a role of both individuals as well as team members in varied roles and parts in group activities. Groups must perform as a group but individuals within the group must perform different tasks to demonstrate achievement of evidence requirements.

Assessment strategy

Assessment of the evidence requirements, to confirm that learning outcomes have been met, is considered holistically where evidence in one unit or learning outcome may provide the evidence for other units and learning outcome.

This qualification is examined in two ways: assessment of underpinning knowledge and performance. Underpinning knowledge is examined so that more than 80% of the predetermined marking criteria must be met. Performance is assessed by an assessor in the workplace against the performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.

This qualification is internally assessed by qualified Assessors and verified by Qualified Internal and External Verifiers of Approved Provider status institutions. Simulations in assessment are not recommended and will require prior approval from the External Verifier.

Assessment can include role play, scenario setting, use of drama, presentations, written material, notes, checklists, lists, statements, comparative charts, and diagrammes.

Recording and storing of learner achievement

Keep evidence of learner's work in the centre for up to one year.

Maintain learning logs and evidence of professional development.

Maintain learner portfolios of work as evidence of achieving learning outcomes.

Business Administration
Level: 4Credit value: 3Notional learning hours: 45 hours
Assessment criteria: Knowledge, skills and application (KSA)
Learning outcomes
Learning outcome 1: Be able to differentiate roles and responsibilities
Performance criteria:
1.1. Documented governance and management issues in the organisation governance policy
guidelines are differentiated.
1.2. Governance issues and management issues and their relationships are identified and
documented.
1.3. Board member's roles in the organisation's governance policies and procedures are identified
and documented.
1.4. The relationship between the Board and associated entities, and their management are
explained.
1.5. The Board decision-making processes are outlined.
Learning outcome 2: Be able to document management roles and responsibilities
Performance criteria:
2.1. Performance outcomes are documented with appropriate assistance, and included in position
descriptions and contracts.
2.2. Management duties are documented and clarified.
2.3. Areas of responsibility are discussed and documented and guidelines established with
employed staff that are Board members.
Learning outcome 3: Be able to supervise management of the organisation
Performance criteria:
3.1. Manager's information and advice is received and applied in decision making.
3.2. Decisions are implemented as instructed by the manager and specific directions are followed
as required.
3.3. Feedback from the manager about previous actions is received.
3.4. Management performance is regularly reviewed against standards for the job.
Evidence guideline
• Formative evidence for this unit can be written, oral or diagrammatic, as directed for given
situations.
Formative evidence ought to assist learners to learn and increase performance to reach
summative assessment requirements.
• Summative assessment is project based from real live work situations. Simulation is only
permissible with the written approval of the Internal Verifier.
• Learners should demonstrate no less than 80% of the requirements for the summative
assessment.
Re submissions are permissible.

- 1. Learners differentiate roles and responsibilities within an organizational structure and evidence with a report on governance and management issues, roles, responsibilities, relationships and decision making processes.
- 2. Learners document management roles and responsibilities and evidence with a report on management duties, responsibilities and performance outcomes.
- 3. Learners supervise management of the organization and evidence with a report on management performance.
- 4. Learners review own work and identify performance improvement strategies.

earning outcomes
earning outcome 1: Be able to determine resource requirements erformance criteria:
 Resource requirements are determined in accordance with business, operational plans, and organisational requirements.
.2. Opportunities to individuals and workgroups to contribute to the identification of resource
requirements are provided.
.3. Resources expenditure is placed realistically and makes efficient use of available budget
resources.
4. Resources requirements recommendations are presented in the required format, style and
structure using relevant business equipment and technology.
earning outcome 2: Be able to acquire and allocate resources
erformance criteria:
.1. Physical resources and services in accordance with organisational requirements are acquired.
.2. Resources are checked to ensure quality and quantity, in line with service agreements.
.3. Resources are allocated promptly to enable achievement of workgroup objectives.
.4. Consultation with individuals and teams on allocation of resources is participative and
conducted using appropriate interpersonal skills.
earning outcome 3: Be able to monitor and report on resource usage
erformance criteria:
.1. Effectiveness of resources planning, is measured and assessed against actual costs, identified
shortfalls and surpluses.
2. Methods of monitoring resource use are developed and implemented to enable timely and
accurate reporting against business and operational plans.
.3. Improvements in resource planning are identified through consultation and feedback, and implemented in accordance with organisational requirements.
.4. Records concerning equipment and resource purchases, are maintained in accordance with
organisational requirements.

Unit Information
Unit description of content
This unit deals with the performance outcomes, skills and knowledge required to design and
develop business documents using complex technical features of word processing software. This
unit applies to individuals who work in a range of business environments and are skilled in the
creation of complex documents using word processing software. These skills may be applied in
the provision of administrative support within an enterprise, or by technical/knowledge experts
responsible for producing their own word processed documents.
Information for learning and achievement
This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of
the unit requirements and demonstrate achievement in all aspects of evidence requirements. It is
strongly advised that learning and development of knowledge and associated skills be referenced
to real vocational situations in the workplace. Evidence must be at the level required by the unit
standard and all related criteria. Candidates must contribute to group work by playing a role of
both individuals as well as team members in varied roles and parts in group activities. Groups
must perform as a group but individuals within the group must perform different tasks to
demonstrate achievement of evidence requirements.
Assessment strategy
Assessment of the evidence requirements, to confirm that learning outcomes have been met, is
considered holistically where evidence in one unit or learning outcome may provide the evidence
for other units and learning outcome.
This qualification is examined in two ways: assessment of underpinning knowledge and
performance. Underpinning knowledge is examined so that more than 80% of the predetermined
marking criteria must be met. Performance is assessed by an assessor in the workplace against the
performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises
all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted
but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.
This qualification is internally assessed by qualified Assessors and verified by Qualified Internal
and External Verifiers of Approved Provider status institutions. Simulations in assessment are not
recommended and will require prior approval from the External Verifier.
Assessment can include role play, scenario setting, use of drama, presentations, written material,
notes, checklists, lists, statements, comparative charts, and diagrammes.
Recording and storing of learner achievement
Keep evidence of learner's work in the centre for up to one year.
Maintain learning logs and evidence of professional development.
Maintain learner portfolios of work as evidence of achieving learning outcomes.

Document purpose, audience and presentation requirements are identified and clarified with relevant personnel. 1.3. Organisational requirements for text-based business documents are identified to ensure consistency of style and image. 1.4. Complex technical functions of the software are evaluated for their usefulness in fulfilling the requirements of the task. 1.5. Document requirements are matched with software functions to provide efficient production of documents. Learning outcome 2: Be able to design complex documents Performance criteria: 2.1. Document structure and layout are designed to suit purpose, audience and information requirements of the task. 2.2. Documents are designed to enhance readability and appearance, and to meet organisational and task requirements for style and layout. 2.3. Complex software functions are used to enable efficient manipulation of information and other material, and consistency of design and layout. 2.4. Manuals, user documentation and online help are used to overcome problems with document design and production. Learning outcome 3: Be able to add complex tables and other data Performance criteria: 3.1. Standard tables are inserted into documents, changing cells to meet information requirements.	
 Performance criteria: 1.1. Safe work practices are used to ensure ergonomic, work organisation, energy and resource conservation requirements are addressed. 1.2. Document purpose, audience and presentation requirements are identified and clarified with relevant personnel. 1.3. Organisational requirements for text-based business documents are identified to ensure consistency of style and image. 1.4. Complex technical functions of the software are evaluated for their usefulness in fulfilling the requirements of the task. 1.5. Document requirements are matched with software functions to provide efficient production of documents. Learning outcome 2: Be able to design complex documents Performance criteria: 2.1. Document structure and layout are designed to suit purpose, audience and information requirements of the task. 2.2. Documents are designed to enhance readability and appearance, and to meet organisational and task requirements for style and layout. 2.3. Complex software functions are used to enable efficient manipulation of information and other material, and consistency of design and layout. 2.4. Manuals, user documentation and online help are used to overcome problems with document design and production. Learning outcome 3: Be able to add complex tables and other data Performance criteria: 3.1. Standard tables are inserted into documents, changing cells to meet information requirements. 3.2. Rows and columns are formatted as required. 3.3. Images and other data, are inserted and formatted. Learning outcome 4: Be able to produce documents Performance criteria: 4.1. The development of documents and use of complex operations to achieve results are demonstrated. 4.2. Documents are previewed, adjusted and printed in accordance with organisational and task 	
 Safe work practices are used to ensure ergonomic, work organisation, energy and resource conservation requirements are addressed. Document purpose, audience and presentation requirements are identified and clarified with relevant personnel. Organisational requirements for text-based business documents are identified to ensure consistency of style and image. Complex technical functions of the software are evaluated for their usefulness in fulfilling the requirements of the task. Document requirements are matched with software functions to provide efficient production of documents. Learning outcome 2: Be able to design complex documents Performance criteria: Document structure and layout are designed to suit purpose, audience and information requirements of the task. Documents are designed to enhance readability and appearance, and to meet organisational and task requirements for style and layout. Complex software functions are used to enable efficient manipulation of information and other material, and consistency of design and layout. Manuals, user documentation and online help are used to overcome problems with document design and production. Learning outcome 3: Be able to add complex tables and other data Performance criteria: Standard tables are inserted into documents, changing cells to meet information requirements. Rows and columns are formatted as required. Manges and other data, are inserted and formatted. Learning outcome 4: Be able to produce documents Performance criteria: The development of documents and use of complex operations to achieve results are demonstrated. Documents are previewed, adjusted and printed in accordance with organisational and task

Evidence guideline	
• Formative evidence for this unit can be written, oral or diagrammatic, as directed for given	
situations.	
Formative evidence ought to assist learners to learn and increase performance to reach	
summative assessment requirements.	
• Summative assessment is project based from real live work situations. Simulation is only permissible with the written approval of the Internal Verifier.	
• Learners should demonstrate no less than 80% of the requirements for the summative	
assessment.	
Re submissions are permissible.	
Evidence requirements	
1. Learners prepare to produce word processed documents and evidence with a report on	
document requirements, software functions to support document production, and safe and	
healthy work practices.	
 Learners design complex documents and evidence with a report on document requirements, document design, supporting software functions, and sources and strategies used to overcom problems in document design and production. 	e
3. Learners add complex tables and other data and evidence with a report on the insertion,	
formatting and styling of tables, images and other data.	
4. Learners produce documents and evidence with a report on the previewing, adjustment,	
printing, naming, recording, and planning of documents.	
5. Learners review own work and identify performance improvement strategies.

Abu Dhabi Centre for Technical and Vocational Education and Training						
Business Administration						
Qualification title: Certificate 4 in Business Administration						
Qualification code: PQFC00040112						
Quantication code. 1 QI C000+0112						
Unit: 7						
Unit title: Write complex documents						
Unit code: FC000401712						
Business Administration						
Level: 4Credit value: 3Notional learning hours: 45 hours						
Unit Information						
Unit description of content						
This unit deals with the performance outcomes, skills and knowledge required to plan documents,						
draft text, prepare final text and produce documents of some complexity for the business						
environment.						
This unit describes the performance outcomes, skills knowledge required to differentiate roles						
and responsibilities, document management roles and responsibilities, supervise management of						
the organisation. Licensing, legislative, regulatory requirements that apply to this unit at the time						
of endorsement.						
Information for learning and achievement						
This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of						
the unit requirements and demonstrate achievement in all aspects of evidence requirements. It is						
strongly advised that learning and development of knowledge and associated skills be referenced						
to real vocational situations in the workplace. Evidence must be at the level required by the unit						
standard and all related criteria. Candidates must contribute to group work by playing a role of						
both individuals as well as team members in varied roles and parts in group activities. Groups						
must perform as a group but individuals within the group must perform different tasks to						
demonstrate achievement of evidence requirements.						
Assessment strategy						
Assessment of the evidence requirements, to confirm that learning outcomes have been met, is						
considered holistically where evidence in one unit or learning outcome may provide the evidence						
for other units and learning outcome.						
This qualification is examined in two ways: assessment of underpinning knowledge and						
performance.						
Underpinning knowledge is examined so that more than 80% of the predetermined marking						
criteria must be met. Performance is assessed by an assessor in the workplace against the						
performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises						
all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted						
but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.						
This qualification is internally assessed by qualified Assessors and verified by Qualified Internal						
and External Verifiers of Approved Provider status institutions. Simulations in assessment are not						
recommended and will require prior approval from the External Verifier.						
Assessment can include role play, scenario setting, use of drama, presentations, written material,						
notes, checklists, lists, statements, comparative charts, and diagrammes.						
Recording and storing of learner achievement						
Keep evidence of learner's work in the centre for up to one year.						
Maintain learning logs and evidence of professional development.						
Maintain learner portfolios of work as evidence of achieving learning outcomes.

permissible with the written approval of the Internal Verifier.

- Learners should demonstrate no less than 80% of the requirements for the summative assessment.
- Re submissions are permissible.

- 1. Learners plan documents and evidence with a report on document requirements, document format and structure, and communication means.
- 2. Learners draft text and evidence with a report on the selection and organization of data, information, and graphics.
- 3. Learners prepare final text and evidence with a report on revision and adjustments.
- 4. Learners produce documents and evidence with a report on document produced and software used.
- 5. Learners review own work and identify performance improvement strategies.

Unit: 8						
Unit title: Organise meetings						
Unit code: FC000401812						
Business Administration						
Level: 4Credit value: 3Notional learning hours: 45 hours						
Unit Information						
Unit description of content						
This unit deals with the performance outcomes, skills and knowledge required to organise						
meetings including making arrangements, liaising with participants, developing and distributing	ıg					
meeting related documentation as well as learning how to actively participate in meetings as p	art					
of a collaborative group						
Information for learning and achievement						
This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of	f					
the unit requirements and demonstrate achievement in all aspects of evidence requirements. It						
strongly advised that learning and development of knowledge and associated skills be reference						
to real vocational situations in the workplace. Evidence must be at the level required by the un						
standard and all related criteria. Candidates must contribute to group work by playing a role of						
both individuals as well as team members in varied roles and parts in group activities. Groups						
must perform as a group but individuals within the group must perform different tasks to						
demonstrate achievement of evidence requirements.						
Assessment strategy						
Assessment of the evidence requirements, to confirm that learning outcomes have been met, is						
considered holistically where evidence in one unit or learning outcome may provide the evidence						
for other units and learning outcome.						
This qualification is examined in two ways: assessment of underpinning knowledge and						
performance. Underpinning knowledge is examined so that more than 80% of the predetermined						
marking criteria must be met. Performance is assessed by an assessor in the workplace against the						
performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises						
all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted						
but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.						
This qualification is internally assessed by qualified Assessors and verified by Qualified Internal						
and External Verifiers of Approved Provider status institutions. Simulations in assessment are not						
recommended and will require prior approval from the External Verifier.						
Assessment can include role play, scenario setting, use of drama, presentations, written material,						
notes, checklists, lists, statements, comparative charts, and diagrammes.						
Recording and storing of learner achievement						
Keep evidence of learner's work in the centre for up to one year.						
Maintain learning logs and evidence of professional development.						
Maintain learner portfolios of work as evidence of achieving learning outcomes.

Unit: 9 Unit title: Make a presentation Unit code: FC000401912 Business Administration

Notional learning hours: 45 hours

Unit Information

Level: 4

Unit description of content

This unit deals with performance outcomes, skills and knowledge required to prepare, deliver and review a presentation to a target audience.

Information for learning and achievement

Credit value: 3

This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of the unit requirements and demonstrate achievement in all aspects of evidence requirements. It is strongly advised that learning and development of knowledge and associated skills be referenced to real vocational situations in the workplace. Evidence must be at the level required by the unit standard and all related criteria. Candidates must contribute to group work by playing a role of both individuals as well as team members in varied roles and parts in group activities. Groups must perform as a group but individuals within the group must perform different tasks to demonstrate achievement of evidence requirements.

Assessment strategy

Assessment of the evidence requirements, to confirm that learning outcomes have been met, is considered holistically where evidence in one unit or learning outcome may provide the evidence for other units and learning outcome.

This qualification is examined in two ways: assessment of underpinning knowledge and performance. Underpinning knowledge is examined so that more than 80% of the predetermined marking criteria must be met. Performance is assessed by an assessor in the workplace against the performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.

This qualification is internally assessed by qualified Assessors and verified by Qualified Internal and External Verifiers of Approved Provider status institutions. Simulations in assessment are not recommended and will require prior approval from the External Verifier.

Assessment can include role play, scenario setting, use of drama, presentations, written material, notes, checklists, lists, statements, comparative charts, and diagrammes.

Recording and storing of learner achievement

Keep evidence of learner's work in the centre for up to one year.

Maintain learning logs and evidence of professional development.

Maintain learner portfolios of work as evidence of achieving learning outcomes.

Business Administration
Level: 4Credit value: 3Notional learning hours: 45 hours
Assessment criteria: Knowledge, skills and application (KSA)
Learning outcomes
Learning outcome 1: Be able to prepare a presentation
Performance criteria:
1.1. Presentation approaches and intended outcomes are planned and documented.
1.2. Presentation strategies, format and delivery methods that match the characteristics of the
target audience, location, resources and personnel needed are chosen.
1.3. Presentation aids, materials and techniques that suit the format and purpose of the
presentation, and will enhance audience understanding of key concepts and central ideas are
selected.
1.4. Persons involved in the presentation are briefed on their roles/responsibilities within the
presentation.
1.5. Techniques are selected to evaluate presentation effectiveness.
Learning outcome 2: Be able to deliver a presentation
Performance criteria:
2.1. Desired outcomes of the presentation are explained and discussed with the target audience
2.2. Presentation aids, materials and examples are used to support target audience understanding
of key concepts and central ideas.
2.3. Non-verbal and verbal communication of participants are monitored to promote attainment of
presentation outcomes.
2.4. Persuasive communication techniques are used to secure audience interest.
2.5. Opportunities are provided for participants to seek clarification on central ideas and concepts,
and adjust the presentation to meet participant needs and preferences.
2.6. Key concepts and ideas are summarised at strategic points to facilitate participant
understanding.
Learning outcome 3: Be able to review the presentation
Performance criteria:
3.1. Techniques are implemented to review the effectiveness of the presentation.
3.2. Reactions to the presentation and discussed from participants or from key personnel involved
in the presentation are sought.
3.3. Feedback from the audience or from key personnel involved in the presentation is utilised to
make changes to central ideas presented.
Evidence guideline
 Formative evidence for this unit can be written, oral or diagrammatic, as directed for given
situations.
• Formative evidence ought to assist learners to learn and increase performance to reach summative assessment requirements.
 Summative assessment requirements. Summative assessment is project based from real live work situations. Simulation is only
1 0
permissible with the written approval of the Internal Verifier.

- Learners should demonstrate no less than 80% of the requirements for the summative assessment.
- Re submissions are permissible.

- 1. Learners prepare a presentation and evidence with a report on intended outcomes, presentation delivery methods, equipment and presentation aids required, persons involved, and evaluation techniques.
- 2. Learners deliver a presentation and evidence with a report on presentation structure, key concepts and ideas to be communicated, presentation aids and equipment used, interaction and communication with the audience.
- 3. Learners review the presentation and evidence with a report on evaluation techniques, feedback from the audience and staff involved, and recommendations for improvement.
- 4. Learners review own work and identify performance improvement strategies.
