Abu Dhabi Centre for Technical and Vocational Education and Training Human Resources Qualification title: Certificate 3 in Human Resources Qualification code: PQFC05030112 Delivery and Assessment

Mode of delivery

Mode of delivery will be classroom or any other mode of delivery that meets the needs of the learner, ensuring learner has access to appropriate resources.

It is strongly advised that learning and development of subject content and associated skills be referenced to real vocational situations in an office environment.

Arrangements for learners with special assessment requirements

Arrangements for learners with special assessment requirements may need to be adapted to meet;
- language requirements
- cultural or religious requirements
- physical disabilities
- particular learning needs.

Trainer qualifications

Training of learners will be by qualified Licensed Vocational Trainers who meet the requirements for employment in an ACTVET licensed institute and hold the required qualifications of Licensed Vocational Trainer (proposed). Licensed Vocational Trainers should be qualified and have recent experience of work in office environments.

The trainer will comply with all licensing and accreditation requirements for an ACTVET Licensed Trainer.

Training methods

Licensed Vocational Trainers must use appropriate methods of training for classroom environment that reflects the vocational requirements of a workplace setting. Learning must be paced to meet the learner's needs, preferred style of learning and is taught at a level where all learners comprehend the concepts trained.

Assessment

Assessment will be in classroom environment conducted by Assessors who meet the requirements for employment in an ACTVET licensed institute and hold the required qualifications of Licensed Vocational Assessor. Assessment methodology will be selected to utilise the most appropriate methods of assessment for the knowledge or skill involved and will be tailored to meet the requirements of the Unit Standards. Assessors must take into consideration any special assessment arrangements for learners to ensure learners are not disadvantaged in the assessment process.	Assessors must have: - licensed Vocational Assessor qualifications or similar - applied industrial experience - assessment practices that meet QFEmirates National Standards of assessment - regular professional development practices.

Assessment methods
All assessment methods must use the appropriate assessment methods to assess knowledge and skill. There must be fair, valid, reliable, authentic and sufficient evidence for all assessment criteria.

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this qualification:

- assessment of written reports summarising results of candidate skills assessment and selection outcomes
- observation of techniques
- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- oral or written questioning
- review of authenticated documents from the workplace or training environment
- review of testimony from team members, colleagues, supervisors, managers, clients or candidates

Assessor decisions will make assessments that will be coded according to the following schedule:	Code to be inserted on record sheet

Simulation	S

Verifier	Vocational verifiers must have
The Verifier will observe Assessors carrying out assessments, review assessment decisions from the evidence provided and hold meetings with the assessment team to ensure consistency in the use of paperwork and interpretation of the qualification's requirements. Verifiers will ensure that learner tracking of registration for qualifications, assessment decisions and achievement, are recorded and maintained accurately and timely and are open to scrutiny.	• verifier qualifications or similar • applied industrial experience • verification practices that meet NQEmirates National Standards of verification • regular professional development practices • ability to manage the learner's work environment for the verification process • ability to evidence standardisation processes.

Verification method	
Assessment and verification process will conform to the following:	
• Institute systems for learner, assessment and verification are unified.	• Evidence collection makes efficient use of assessment opportunities and work production.
• Qualified Assessors must be used for all assessment.	• Licensed Vocational Verifiers must be used for all verifications.
• Learner's achievement is evidenced and recorded.	• Verification of learner's achievement is evidenced by best practice.
• Learner is included in the assessment decision making process.	• Verification of learner's achievement is tracked and recorded.
• Assessment of learner's achievement is evidenced by best practice.	• Standardisation of assessment and verification processes are evidenced
• Assessment takes into account diversity and language differences.	• Evidence of sharing of learner, assessor and verifier best practice.
• Assessment of learner's achievement is tracked and recorded.	• Evidence that complaints are addressed, recorded and solved effectively.
• Learner will be able to compile their portfolio using their preferred technology.	• National Industry Sector Classification Code (SIC) to classify units and qualifications as per the guidance in the QFEmirates handbook.
• Assessment uses valid, fair, authentic and reliable practice and reduces barriers to assessment.	

Verification method is the header of the box, "Assessment and verification process will conform to the following:" is the subtitle.

Assessing and grading

This qualification is a knowledge, skills and application qualification. Assessment should, where possible, take a holistic approach. Assessment in one unit can be used as the assessment for another, if the assessed piece of work covers the criteria in the units. Assessment must be accessible for learners and the process of assessment as simple as possible. Learners must demonstrate competence by producing a portfolio of evidence.

This qualification is examined in two ways: assessment of performance and underpinning knowledge. All performance is assessed by an assessor against the performance criteria and recorded in the Cumulative Assessment Record. Competence recognises all qualification requirements have been achieved. Not yet competent means all requirements have been attempted but yet to be achieved, insufficient evidence means all requirements have not been attempted. Underpinning knowledge is examined that more than 80% of the predetermined marking criteria should be met.

This qualification is internally assessed by qualified Assessors and verified by Qualified Internal and External Verifiers of Approved Provider status institutions. Simulations in assessment are not recommended will require prior approval from the External Verifier.

Learner evidence

Learners must demonstrate knowledge and skill achievement in a presented portfolio.

Integrated assessment

Opportunities for integrated assessment are possible between units 2, 4, 5, 6, 7 and 8

Risk in assessment
The learner's work environment needs proper management and risk management analyses. The following risks will be observed in the training, assessment and verification phases: • health and safety • stressing the learner • inauthentic evidence/collation/unjustifiable support to the learner • over-assessment • potential of unfairness to the learner • failing to meet assessment strategy of a qualification.

Appeals procedure
In the event that a learner judges that he is being unfairly considered in the assessment or verification process he has the right to appeal using the recognised appeals procedure and documentation (not included in this submission). In the event that an assessor judges that he is being unfairly considered in the assessment or verification process he has the right to appeal using the recognised appeals procedure and documentation.

Unit Information

Unit description of content

This unit deals with health and safety in the workplace. This unit considers the contribution a learner will make to health and safety in the workplace, identification of evacuation routes out of a building, how emergency situations can be reported and to whom within the office environment, and how emergencies are reported for risks and near risks that may occur in an office environment.

Information for learning and achievement

This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of the unit requirements and demonstrate achievement in all aspects of evidence requirements. It is strongly advised that learning and development of knowledge and associated skills be referenced to real vocational situations in the workplace. Evidence must be at the level required by the unit standard and all related criteria. Candidates must contribute to group work by playing a role of both individuals as well as team members in varied roles and parts in group activities. Groups must perform as a group but individuals within the group must perform different tasks to demonstrate achievement of evidence requirements.

Assessment strategy

Assessment of the evidence requirements, to confirm that learning outcomes have been met, is considered holistically where evidence in one unit or learning outcome may provide the evidence for other units and learning outcome.

This qualification is examined in two ways: assessment of underpinning knowledge and performance. Underpinning knowledge is examined so that more than 80% of the predetermined marking criteria must be met. Performance is assessed by an assessor in the workplace against the performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.

This qualification is internally assessed by qualified Assessors and verified by Qualified Internal and External Verifiers of Approved Provider status institutions. Simulations in assessment are not recommended and will require prior approval from the External Verifier.

Assessment can include role play, scenario setting, use of drama, presentations, written material, notes, checklists, lists, statements, comparative charts, and diagrammes.

Recording and storing of learner achievement

Keep evidence of learner's work in the centre for up to one year.
Encourage learners to maintain learning logs and evidence of professional development.
Ensure learners maintain portfolios of work as evidence of achieving learning outcomes.

Unit Information

Unit description of content

This unit addresses the skills, knowledge and basic application required to process documents including receiving and retrieving of information to implement actions to support a range of people management and human capital services

Information for learning and achievement

This unit is a knowledge, skill and application unit (KSA). Learners must attempt all aspects of the unit requirements and demonstrate achievement in all aspects of evidence requirements. It is strongly advised that learning and development of knowledge and associated skills be referenced to real vocational situations in the workplace. Evidence must be at the level required by the unit standard and all related criteria. Candidates must contribute to group work by playing a role of both individuals as well as team members in varied roles and parts in group activities. Groups must perform as a group but individuals within the group must perform different tasks to demonstrate achievement of evidence requirements.

Assessment strategy

Assessment of the evidence requirements, to confirm that learning outcomes have been met, is considered holistically where evidence in one unit or learning outcome may provide the evidence for other units and learning outcome.
This qualification is examined in two ways: assessment of underpinning knowledge and performance.
Underpinning knowledge is examined so that more than 80% of the predetermined marking criteria must be met. Performance is assessed by an assessor in the workplace against the performance criteria and recorded in the Cumulative Assessment Record. 'Competent' recognises all unit criteria have been achieved. 'Not yet competent' means all criteria have been attempted but yet to be achieved, 'insufficient evidence' means not all criteria have been attempted.
This qualification is internally assessed by qualified Assessors and verified by Qualified Internal and External Verifiers of Approved Provider status institutions. Simulations in assessment are not recommended and will require prior approval from the External Verifier.
Assessment can include role play, scenario setting, use of drama, presentations, written material, notes, checklists, lists, statements, comparative charts, and diagrammes.

Recording and storing of learner achievement

Keep evidence of learner's work in the centre for up to one year.
Encourage learners to maintain learning logs and evidence of professional development.
Ensure learners maintain portfolios of work as evidence of achieving learning outcomes.

Learning outcomes

Learning outcome 1: Be able to receive people management and human capital information

Performance criteria:

1.1. Information that is received from various sources is prepared for processing.
1.2. Privacy and confidentiality concerns that apply to the types of information being processed are identified.
1.3. Information is checked for accuracy and required action taken to ensure information is appropriate for intended use or application.

Learning outcome 2: Be able to record people management human capital information

Performance criteria:

2.1. Information required is identified for accessing appropriate information systems.
2.2. Data in accordance with policies and procedures is maintained.
2.3. Actions resulting from entry of data into the people management and human capital system are identified.

Learning outcome 3: Be able to implement actions arising from information processing

Performance criteria:

3.1. Information is provided to employees responsible for follow up actions.
3.2. Actions as advised by relevant employees are provided.
3.3. Final outcomes to relevant parties in accordance with organisational policies and procedures are communicated.

Learning outcomes

Learning outcome 1: Understand and explore effective work environment for learning

Performance criteria:

1.1. Objectives and scope of work-based learning are identified and agreed.

1.2. Work practices and routines are identified to determine effectiveness in meeting the established learning objectives.

1.3. Organisational health and safety implications of using work as the basis for learning are identified and addressed.

Learning outcome 2 : Be able to collaborate in a work-based learning pathway

Performance criteria:

2.1. Requirements and responsibilities for learning at work are collaboratively established.

2.2. Integration and monitoring of external learning activities are arranged with the work-based learning pathway.

2.3. Agreement from relevant personnel is obtained to implement the work-based learning pathway.

Learning outcome 3 : Be able to contribute to the learning-facilitation relationship

Performance criteria:

3.1. Context for learning and individual learning styles are identified.

3.2. Techniques or processes to learning are selected and discussed with learners.

3.3. Individualised learning plans are collaboratively developed, documented and discussed with learner.

Learning outcome 4: Be able to participate in work-based learning pathway

Performance criteria:

4.1. Work-based learning objectives are explained and the processes involved to learner agreed.

4.2. Learners are encouraged to take responsibility for learning and to self-reflect.

Learning outcome 5: Be able to monitor the learning relationship

Performance criteria:

5.1. Each session is prepared.

5.2. Learning activities are structured to support and reinforce new learning, build on strengths, and identify areas for further development.

5.3. Ethical behaviour is practiced at all times.

5.4. Information on the effectiveness of the learning/facilitation relationship through regular meetings between the parties is collaboratively collected for monitoring.
